General advice

- In addition to covering the content outlined in the advance information, students and teachers should consider how to:
 - manage their revision of parts of the specification which may be assessed in areas not covered by the advance information
 - manage their revision of other parts of the specification which may provide knowledge that helps with understanding the areas being tested in 2022.
- For specifications with synoptic questions, topics not explicitly given in the advance information may appear, e.g. where students are asked to bring together knowledge, skills and understanding from across the specification.

A link to the Joint Council for Qualifications guidance document on advance information can be found on the Joint Council for Qualifications website or [here](#).

Advance Information

Subject specific section

- For our Pearson Edexcel International GCSE Business, for component 01, component 01R, component 02 and component 02R examination papers, questions within these papers will sample content only from the areas specified in this notice.
- Teachers may choose to focus their teaching and revision on the content set out in this document, but should aim where possible to do so only once the full content of the course has been delivered.
- The specification content is presented in numerical order as set out in the specification, and not reflecting the question order of the examination papers.
- Some questions may be answerable using more than one area of specified content.
